Press Release

‘Visit by a group of German scientists, Diplomats and journalists in DROMEAS ’

The industry DROMEAS was visited by a group of 25 scientists, diplomats and journalists from Germany. Head of the group was Mr. Martin Weiss, Consultant of External Policy of the Federal Parliament in Germany and member of the “Union for the South-Easter Europe” Council.

During their three-hour stay they discussed with the Chairman of DROMEAS Mr. Athanasios Papapanagiotou about the challenges and the prospects of the company in the international market, as well as the implications of the political and economical situation in business and especially in production. Also, the 25 membered group was given a tour of the premises of DROMEAS.

The visit is part of an initiative of this organisation so that its members can become acquainted with the Greek reality, as well as to promote Greek competitive production units with a high level of technological incorporation, which also enjoy high global recognition.
